Warm-up

Belly Breathing

- Place one hand on your chest and one hand on your belly.
- **Inhale**: Breathe in through your nose. Think about breathing low to fill up the bottom of your lungs. As you breathe in you should feel your belly press out and/or your ribs expand to the sides. The hand on your chest should stay relatively still.
- **Exhale**: Breathe out with pursed lips. As you breathe out gently contract your abdominals. Think about pressing the air up from below as you exhale.
- Use this breathing throughout all voice exercises.

MMM Sounds

- Hold a hum sound for 5 to 8 seconds.
- Try to notice the forward vibration on your lips.
